

Juan Pablo Vallejo Figueroa – Código: 262155

## 1. Probando Git

Great! You now have a little taste of the greatness of Git. You can take a look at the wrap up page for a little more information on Git and GitHub, oh, and of course your badge!

```

$ git branch -d clean_up

Deleted branch clean_up (was ec6888b).

Success!

$ git push

To https://github.com/try-git/try_git.git
3e70b0f..f07e502 master -> master

Success!

>

```

The screenshot shows a Windows terminal window with the title bar "MINGW64:/c/Users/Vallejo". The terminal content is as follows:

```
Vallejo@VallejoMC MINGW64 ~  
$ git init  
Initialized empty Git repository in C:/Users/Vallejo/.git/  
  
Vallejo@VallejoMC MINGW64 ~ (master)  
$ git config --global user.name 'Juan Vallejo'  
  
Vallejo@VallejoMC MINGW64 ~ (master)  
$ git config --global user.email 'jpvallejof@una1.edu.co'  
  
Vallejo@VallejoMC MINGW64 ~ (master)  
$ git config --global branch.autosetupprebase always  
  
Vallejo@VallejoMC MINGW64 ~ (master)  
$ git config --global merge.ff false  
  
Vallejo@VallejoMC MINGW64 ~ (master)  
$ git config  
usage: git config [<options>]  
  
Config file location  
--global      use global config file  
--system      use system config file
```

At the bottom of the terminal, the text "er set up to track remote branch master from origin." is partially visible.
